Undergraduate Degree Photography

Career opportunities

The undergraduate degree in Photography offered by IPT provides a full overview of photography from the 19th and 20th century processes to the new digital technologies of the 21st century. Our fully equipped all-purpose laboratories and studios allows us to deliver highly skilled professionals into the labour market.

The students acquire practical and conceptual skills that allow them to autonomously carry out projects in the following areas: documentary photography, photojournalism, author photography, architectural photography, advertising photography, industrial photography, fashion photography, digital post-production, colour management and print quality control, among others.

Entry requirements**Regional Preferences**

(30%): Castelo Branco, Coimbra, Leiria, Lisboa, Portalegre and Santarém.
